If we have to calculate percent of a number, divide the number by the whole and multiply by 100.

Hence, the percentage means, a part per hundred. The word per cent means per 100.

It is represented by the symbol %.

How Do We Find Percentage? The percentage can be found by dividing the

value by the total value and then multiplying the result by 100. The formula used

to calculate the percentage is: $(\text{value}/\text{total value})100\%$
