It was released worldwide on November 3, 2024 for PlayStation 4, Windows and Xbox One. It is the 🧾 fourteenth main installment in the Call of Duty series and the first title in the series to be set primarily 🧾 during World War II since Call of Duty: World at War in 2008.</p><p>The game's campaign is set in the European 🧾 theatre and is centered around a squad in the 1st Infantry Division following their battles on the Western Front and 🧾 set mainly in the historical events of Operation Overlord. The player controls Ronald "Red" Daniels, who has squadmates who can 🧾 supply the player with extra ammunition, health, or grenades as well as a targeted grenade and target spotting; none of 🧾 these are automatically replenished in the campaign. The multiplayer mode features map locations not seen in the campaign. The mode 🧾 also features the new Divisions system, replacing the create-a-class system that previous games in the series used. A social hub, 🧾 named Headquarters, was also implemented into the game, allowing for players to interact with each other.</p><p>Sledgehammer Games were interested in 🧾 bringing the series back to World War II after developing their previous title, Call of Duty: Advanced Warfare (2014), which 🧾 featured advanced movements and futuristic warfare technology. Studio head Michael Condrey stated that he was unsure if a World War 🧾 II game would feel right after creating a futuristic title like Advanced Warfare, but the developers ultimately decided to create 🧾 a game in this time period. They also chose to include atrocities and Nazi concentration camps in the campaign mode 🧾 to deliver an authentic war story.</p><p></p><p>O mundo.
