&lt;p&gt;&lt;/p&gt;&lt;p&gt;Bookies set odds for sporting events or other competitions that attract betting action. The odds are designed to encourage betting & #128139; on both sides of an event, ensuring that the bookie will make a profit regardless of the outcome. They do & #128139; this by adjusting the payout odds to favor the less likely outcome, thus ensuring a profit even if the majority & #128139; of bets are placed on the more likely outcome.&lt;/p&gt;  
&lt;p&gt;Bookies also collect a commission, known as the &quot;vig&quot; or &quot;tjuice,&quot; on & #128139; losing bets. This commission is typically around 10 % of the total amount wagered. By collecting this fee on all losing & #128139; bets, bookies are able to generate revenue even if they pay out a significant amount of money to winning bettors.&lt;/p&gt;  
&lt;p&gt;Finally, & #128139; bookies may limit the amount of money paid out to winning bettors. This is done to manage risk and ensure & #128139; that the bookie remains profitable. By limiting the payout to winning bettors, bookies are able to protect themselves from large & #128139; losses in the event of a significant upset or unexpected outcome.&lt;/p&gt;  
&lt;p&gt;In summary, bookies make money through a combination of setting & #128139; odds, collecting commissions, and limiting payouts to winning bettors. These strategies allow them to generate revenue and remain profitable over & #128139; the long term.&lt;/p&gt;
