Gonzo is quite the entertaining guy in his little co

nquistador's uniform, scratching his beard and spinning his helmet in boredo

m, dancing and fist-pumping when wins occur, and even doing a moonwalk across th

e screen when he's really happy with the payout.

The screen art is beautifully rendered, with an Inca temple in the back

ground, lots of greenery, and a fountain of water pouring out of a stone-carved

face. The background noises make you feel like you're really in a Central Am

erican jungle, and when the symbols fall, it sounds like real stones tumbling.&l

Features

The traditional reel spin you see on most slots has been replaced on th

e Gonzo's Quest slot with the new Avalanche feature, which means that symbol

s fall into place on the reels individually, as if being dropped from above. Whe

n they hit a winning bet line, they explode in an entertaining, 3D fashion, and

more symbols fall to fill in the gaps as long as there are winning paylines on t

he reels. Each additional win is multiplied. Once they've been awarded, all

the symbols fall away and are replaced with 15 new ones. Because the Avalanche f

eature somewhat extends the game play, you get more chances to win with every sp

in.
