<p></p><p>The final part of the game takes place in Baltimore,

where the National Guard and SFGS reclaim Baltimore/Washington International Thurgood Marshall Airport taken by the Russian forces, and fight through the Baltimore seaport and learn that the Russians have moved a WMD into the U.S., and are moving the weapon to a combat zone. The teams race through the port, fighting their way aboard a cargo ship where the Russians are offloading the weapon. The National Guard team makes it to the deck of the cargo vessel just as a Russian Hind helicopter carrying the weapon takes off. The teams manage to bring down the helicopter with an RPG, and the game ends as the player's C.O. states, "Now the real fight begins", referring to World War III in Modern Warfare 3.</p>

<p>Defiance features a multiplayer mode that has been significantly improved over its predecessors, featuring the ability for players to create

and save weapon loadouts, grenade options, titles and perks. Weapons are unlocked when the player had made a specified number of kills with a similar weapon, in a functionality similar to the earlier handheld Call of Duty games. Additionally, players may change loadouts whenever they respawn. Similarly, players may preset map options, and run them instantly when host.</p>
