<p></p><p>So, I got a soft blob-like thing, and I was tossing with it in a prototype for a very long 😊 time. It turned out that it s tough to invent something new. Finally, I got an idea of a fat cat 😊 th at likes to blow balloons. The name of the game is Puffy Cat, and I ll be glad i f you play 😊 it on Poki</p>
<p>The final version of the game has 150 levels, 26 hats, 18 balloon skins , 225 sprites, 35 sound 😊 fx, and plenty of fun! And we agreed with the publisher to make two more games in the Puffy Cat 😊 series with new ga me mechanics and content.</p>
<p>What I like the most about Defold is that:</p>
<p>I use Defold IDE to make 😊 levels, i.e. I have quite a few pre -made game objects to construct a level. Every level is a collection with ԅ 22; references to these game objects. All these levels linked to the parent col lection as Defold s collection factories. It s an easy 😊 way to make le vels without any external editors like Tiled etc.</p>
<p>All I need to run a game from sources is 😊 to download Defold IDE and build/run a project.</p>
