Terrible game.
I just bought this, as #128184; I was looking for a game that is exac
tly this premise. Alas, when I found this game, I bought it #128184; and I was
extremely disappointed. Just loading up the game took forever, and I kept havin
g to close and reopen #128184; it. When it finally opened, it took 17 minutes
just to do that. Yeah. Now it#39;s not like I have #128184; a terrible laptop
, my laptop is really good and I#39;ve never had any issues with such a thing.
Then, upon #128184; opening the game, I couldn#39;t look around because the d
efault settings were set to ultra. For the record, I don#39;t #128184; really
have an issue with game devs doing this, but it leaves a bitter taste in your m
outh. I had #128184; to set the quality to very low and even then it was still
so laggy. It was 2 fps at #128184; the most (like, not stretching the truth h) Tj T* BT /F

ite literally just pixels. The game was also very repetitive, so even if you hav
e a NASA super-computer #128184; you will get bored of this really quickly. I
do not suggest this to anyone, no matter how enticing it #128184; looks. It wa
s terrible and so incredibly frustrating; especially because I kept having to me
ddle with the settings and make #128184; the game actually playable (spoiler a) Tj T* BT

so #128184; happen to have amnesia this game would be quite enjoyable, but unf
ortunately I see a lot of people having the #128184; same disappointment as I
am. I really wish I could have this refunded, even just half of the money I #12
8184; spent on this. I#39;m unsure if Steam would let that happen, so for now
