At roulette, the odds are constant, and

past outcomes have no effect on future play

On a double-zero wheel, the chances of any given number showing up are 1 in 38, every time, no matter

what has gone before.

THE PHYSIC

S OF ROULETTE. Our understanding of the physics behind the movement of the ball

and wheel is pretty solid

governed by Newton's laws of motion

As the ball slows, gravity takes hold and it falls into one of the

numbered compartments. It is predictable when the ball will leave the rim.
